1. Pass Rules for MCA (2 Yr. Program):As per University rule

The result of a candidate will be worked out at the end of each Semester Examination. The absolute marks of a student (pi) shall be converted into relative marks (xi) on 100 point scale as below:

$$X_i = \frac{P_i}{P_{max}} q ,$$

where,

xi = Converted relative marks of an individual student in a particular ith subject/course (rounded off to next higher integer number).

Pi = Absolute percentage (%) of marks obtained by an individual student in the ith subject/course.

Pmax = It should be from range of highest absolute percentage of marks obtained in a subject, as per the following table:

07.09.2020

Table: 2.1

Range of highest absolute percentage (%) marks obtained in a subject/ paper exam by the student	P_{max} (%)
90-100	90
80-89	80
70-79	70
60-69	60
50-59	50
40-49	40
30-39	30

q =Highest equivalent relative marks taken for conversion purpose (as given in column 2 of the following table).

Table: 2.2

Absolute highest marks obtained in a subject *(Pabsolute max)*	Highest equivalent relative marks taken for conversation purpose (*q)* on 100 point scale
Column 1	Column 2
$Pabsolute\ max \geq 75\%$	100
$60\% \leq Pabsolute\ max < 75\%$	89
$30\% \leq Pabsolute\ max < 60\%$	79
$Pabsolute\ max < 30\%$	Not considered for conversion

07.09.2020

The Grade and Grade Point shall be awarded to an individual student as under:

Table:2.1

S.No.	Relative Marks (x_i)	Grade	Grade Points
1	$x_i \geq 90$	A++	10
2	$85 \leq x_i < 90$	A+	9.0
	$80 \leq x_i < 85$	A	8.5
4	$75 \leq x_i < 80$	B+	8.0
5	$70 \leq x_i < 75$	B	7.5
6	$65 \leq x_i < 70$	C+	7.0
7	$60 \leq x_i < 65$	C	6.5
8	$55 \leq x_i < 60$	D+	6.0
9	$50 \leq x_i < 55$	D	5.5
10	$45 \leq x_i < 50$	E+	5.0
11	$40 \leq x_i < 45$	E	4.0
12	$x_i < 40$	F	0

(i) For a Pass, candidate must obtain at least grade E for each theory and practical.

(ii) If a student remains "Absent" or obtains "Zero" marks in any of external component of theory or practical, he/she will be awarded "F" grade, respectively and will be required to appear in the subsequent back examinations. "F" grade student while applying for back paper exam., may opt either of the following options:-

i. Wish to carry forward the previous marks of internal assessment.

ii. Wish to improve the internal assessment too.

(iii) No grace shall be awarded.

(iv) Revaluation and copy view system will prevail as per existing examination regulations. However, change of grade point of individual candidate after the revaluation will be independent and shall not affect the grade point of other students.

(v) For a back examinee the grade and grade point of a particular subject/paper shall be calculated on the basis of its appearance in present (appearing) examination.

(vi) The result may include the absolute marks obtained a student in an individual subject with related grade. However, the mark-sheet will contain the Grade, SGPA and CGPA only along with the important related rules of CBCS system.

2. Semester wise SGPA:

$$SGPA = \frac{\sum_{i=1}^{n} c_i \times g_i}{\sum_{i=1}^{n} c_i}$$

Where,
c_i =Number of credits of the i^{th} course of a semester for which SGPA is to be calculated.
g_i =Grade points obtained in i^{th} course

$i = 1,2,\ldots,n$ represent the number of course in which a student is registered in the concerned semester.

3. Overall CGPA:

$$CGPA = \frac{\sum_{i=1}^{m} c_i \times g_i}{\sum_{i=1}^{m} c_i}$$

where,
c_i =Number of credits of the i^{th} course of a semester.
g_i = Grade points obtained in ith course. The Grade, lower than 'E' (i.e. grade point < 4.0) in a course shall not be taken into account.
$i = 1,2,\ldots,m$ represent the number of courses in which a student was registered and obtained a grade not lower than 'E' up to that semester for which CGPA is to be calculated.

(i) The SGPA/CGPA shall be awarded in each semester.
(ii) SGPA/CGPA shall be rounded off to two decimal digits on higher side.
(iii) Final course merit will be decided on the basis of absolute marks obtained by an individual student considering relevant merit ordinance of the university. Revaluation result will be taken into account for deciding the merit of the students.
(iv) Conversion of Percentage to CGPA

Equivalent Percentage= 10 x CGPA

(v) Award of Division: The division of the student shall be awarded in the following manner (subject to the passing of all the semester courses):

Table 4.1

1	CGPA ≥ 7	1st Division with Distinction
2	6≤ CGPA < 7	1st Division
3	5≤ CGPA <6	2nd Division
4	4≤CGPA <5	Pass

(vi) Maximum duration for the completion of course will be four (4) years.

4. End Term Exam Theory Paper Pattern: -

From the coming academic session 2020-21,the following single paper pattern is proposed for MCA course:

Table: 5.1

Part-A will contain 10 questions, covering full syllabus of 2 marks each .Word limit for answer is 25 words.

Part-B will contain 5 questions (1from each unit) of 4 marks each. Word limit is 100 words.

Part-C will contain 3 out of 5 questions of 10 marks each .Questions will be based on Design/ Problem Solving skills.

5. Industrial Project Guideline:

The industrial project is part of the curriculum will be held in the institute as one of the laboratories. This may be in continuations to the project under taken by the student during industrial training and/or of industrial nature and/or have good industrial significance and/or may be done in collaboration with industry (as per suitability at the institute level).
